“ Don was a very special friend and did so much for this community. He called me one day when I was at work and said, "Hey we just had a show host on BLAB TV who can't make their show tonight, are you in?" That was a gutsy move on his part, and I will never forget that call. His trust in me later led to me hosting my own show for several years. Don always had a kind word to say and actively supported so many local charities and events. He believed in giving others a chance to succeed. RIP Donny G. - I will never forget the wonderful friendship I had with both you and Sue. My sincere condolences to your family - I hope you got to enjoy a good golf day in heaven today - Lucy Nicandri

“ When I moved to Sarasota in 1997 I had the good fortune to meet Donny G. As the new owner of Forest Lakes Golf Club, Donny G had me on his show to plug the club. I had a dry throat and coughed the whole time. He never said a word. I played golf with him hundreds of times and watched as we became the shortest hitters in the group as the kids got younger and stronger. Like many of us he knew so many people he couldn't remember their names so every body was called "Big Guy". I always remember his comment when someone would hit a good shot. "Where do they make men like that?"
RIP Donny G. I'll see you on the first tee some day.
