“ Sue was a perfectionist who was keenly intelligent and had a natural curiosity about the world around her. Sue and her sister Kathryn documented the family history and transcribed their great-grandmother's diaries, offering a peek into the world of a late 19th-century Ohio farm family. I always enjoyed talking with her. Sue, who was my grandfather's first cousin, was the last of her generation in our family and I know that she will be missed. Wishing her peace.
