“ I am so sorry to hear of Ann's passing. I shared the concerns she had regarding the use of pesticides and herbicides. I hope there is some one in Florida to pick up the torch. She would have wanted that... Prayers.

“ We have lost a dear, caring friend and vital member of our community. An environmental activist, Ann worked for decades on the pesticide issue, getting regulations passed at the state level and fighting for the use of safer alternatives locally, statewide and nationally. Her friendship, integrity and dedication are greatly missed.
