“ *I am a cousin of Armin's and we were very close as little kids, but have not been in touch for many years. Once our parents drifted apart we never contacted again.*

“ Hello Armin family. Hi Joanie  
Just wanted to let you know the impact Armin has had on many lives, mine included  
. I first met Armin at NML as a computer systems engineer. He struck me as a kind, yet driven man to make computer technology bend to meet the needs of individuals. I learned much from him. Later I was with him at the Wagon Wheel Investment Club. He was a rock in the Club, being the Club Treasurer and elder statesman. Eventually I learned Club accounting from him, as I took over from Armin as the Club Treasurer. To say I had big shoes to follow, would be an understatement. But yet Armin took me under his wings and helped to make a successful transition. This was his way, to help make things better and move things forward. Always leaving a legacy behind -that Armin was here and as a result, things were better because of him.  
You will be missed my old friend
