“ My name is Neil Goulding from Dublin Ireland . I was recently going through my attic when I found a box of stuff from my childhood which contained a post card from Bea. I looked her up online and found out she had passed away, I pass my condolences to her friends and family.

Back in the year 2000 , I was an 11 year old kid playing for a soccer team in a disadvantaged area in Dublin city. There was a tournament set up to bring our team St.Anthonys to Fort Lauderdale to show us kids a better quality of life. The team was split into groups of 4 and housed by people for the 2 week period who obviously must have volunteered to take us in during our visit.

Myself along with 3 other of my friends were housed with Bea , I can still remember to this day what a kind , loving and generous woman she was. That trip was the best experience and memory of my childhood and a lot of that is due to the generosity of Bea. My best memories of it ,was of us playing in her pool everyday and her ordering us pizzas while watching pro wrestling in her living room. She gave us money while we were there to buy clothes , runners and sports watches while we were brought to the mall.

That trip was something very special to us and we were very lucky to get that experience and Bea took such good care of us and she was a pleasure to have met and someone I will never forget.
