“ My condolences to all of you. Bruno and Sara both were very special people. My husband and I knew them from the Hamptons as they were very good friends of my parents, Florence and Clyde Matthews. They were part of the Roundtable and The Center of Creative Retirement. In fact my parents came to Pelican Cove because they visited your parents here. Now we are in Pelican Cove.

Bruno was such a kind and gentle man. We enjoyed being in his company. I also loved and admired his watercolors painting. He was so talented, interesting and caring. He will be missed.
