“David and I were friends at Choate. An excellent athlete he captained the hockey team. In his freshman year he was #1 man on the golf team! During the subsequent years he ran track. On ice or on the track he was extremely fast! He was an athlete who could make a throw from deep center field to Home Plate. David was naturally physically strong. It was amazing how far he was able to drive a golf ball. He was always upbeat with a positive outlook. I am sorry I lost track of David and so many fellow Choate classmates. Rest in Peace "Geister.”

“David and I were good friends at St. Lawrence University. He was an excellent hockey player and as a freshman, was a walk-on and made the SLU team. When he learned that he would have to practice over Thanksgiving, he walked out. We enjoyed playing golf (he had a zero handicap at age 18) and tripped to Sarasota, Florida one Spring break to stay with my parents. One strong memory of that trip was about the third day in Sarasota Dave said to me, "Don't you think you should spend more time with your parents?"
