“ My condolences for your loss. Having been a close and best friend from 4th grade thru high school @ Watseka, his passing was deeply felt and brought back memories of a time when we were immortal. From the football field to the Latin classes and proms we shared the bliss of ignorance and immaturity. Riney had us washing cars for \$1.00/car at his Edsel dealership. Great times, great people and it is with much love I mourn his passing. The obit says he was raised on a small farm. He lived on E. Mulberry street a few blocks from me and we daily walked to school. I hope we some day walk together again.

“ Dad,  
I am so proud, and honored, to be your son. Presenting your eulogy to everyone who was at your memorial service was tough. But I felt your strength when I began to falter. You always taught me to stay strong, believe in what I stood for, and trust those who trusted me. You always did, and I always will.  
Your memory, and stories from those that share theirs from you helping them, will continue for years to come.  
As I finished your eulogy, with your strength keeping me on task...  
Enjoy the light with Mom, Michael, Neomy, and all of our family members in Heaven.  
I love you, and will remain strong with your guidance and lessons you taught me.  
Jack

“ Beautiful service this morning. Loved that Jack told one of my Dad's favorite stories. It seems I have known Mr. Voigt my whole life. He was a great mentor to me. Love to Jack and Bonnie and the entire family.

“ To the family of David. So very sorry to learn of his passing. He was a dear friend to my late husband Dick and myself. I will cherish the good times we all had especially at the Moca get togethers down in Boca Grande. I will miss the service tomorrow but will be thinking of the family.

“ I wanted to start my veterinary surgery practice in 2007 and needed to borrow money. My father-in-law, Dr. Robert Ross, Jr., told me I should talk to Mr. Voigt, so I called him (so did my father-in-law, I suspect). Mr. Voigt was so nice and offered to meet me early on a Saturday morning, of all days, in his office at Bank of Venice. Nobody there but us. I did my due diligence and arrived with a sheaf of papers: business plan, calculations, estimates for equipment, my estimated production, etc. I walked in and set my stuff down because Mr. Voigt was standing with his hand extended to shake mine. When I started to leaf through the papers he stopped me and said, "just leave them there on the desk...how much do you need? Whatever you need." I doubt he ever looked at the papers. So, I owe the very foundation of my career to him. They say there are no handshake deals anymore, and I think that may be true, but I have mine to think back on. Such a kind Gentleman.
