

Eugene "Gene" F. White, Sr.

June 2, 2026

Eugene "Gene" F. White Sr., 79, passed away suddenly into the eternal care of our Lord on Tuesday, June 2, 2026, in Longboat Key, Florida.

Gene's journey took him from his birthplace in Brattleboro, Vermont, through Palmer, Massachusetts, and finally to sunny Florida at age 16. A man of action, Gene served his country as a proud Marine and protected his community on the Atlanta Police Department's first "Decoy Team". He eventually found his true professional calling in Commercial and Industrial HVAC Making history as Georgia's first registered Commissioning Authority. He founded Air Analysis of Atlanta 40 years ago with a simple, honest promise: to give owners a building that worked which took him into major facilities across the Americas.

Beyond his professional achievements, Gene was devoted to his family. He leaves behind his wife of 56 years, Nancy; three children, Gene Jr., Diana Upchurch and John David White; siblings Shirley Rindge and John White; five grandchildren; four great grandchildren; his loyal Yorkie, little Bear; and an extended network of nieces and nephews.
