“ *I will miss Grampy very much. We were fortunate to have made so many special memories with him. My favourites are when he took us searching for shark teeth during a visit to Florida and when he drove me down to Virginia for university in later years. He taught me about the stock market, big band music, travel and everything you would want to know about trains. I will miss the smile and big hugs he always had for us and his big hearty laugh. Love you Grampy!*
