

Glenn Francis Kiplinger

September 29, 1930 - November 17, 2018

Glenn Kiplinger passed away peacefully at home on November 17. He was 88.

Born in Indianapolis, he was the son of Glenn D. and Iva Kiplinger. He attended Butler University there, where he met his future wife Martha Lee Peterson. They were married in 1953, and had four children – Jeffrey (of Hudson NY), Jonathan (of Newtown PA), Jason (of Sarasota FL) and Jennifer (of Concow, CA). Martha passed away in 2011; they had been married for 58 years.

Glenn received a B.Sc. in Pharmacy at Butler and went on to receive a Ph.D. in Pharmacology at the University of Michigan in 1958. He began teaching, which led him to the University of Texas in Galveston, and continuing his academic interests received his M.D. there in 1969. His career directing clinical research, first at Eli Lilly and later at the Johnson & Johnson pharmaceutical companies, ended with his retirement in DATE.

Following retirement, Glenn and Martha moved to Sarasota, and Glenn soon developed an interest in intellectual property law. He earned a J.D. from Stetson University in Tampa in 1997. Unfortunately, a stroke in 1999 left him partially disabled, and he fully retired. Always intellectually restless, he served on Sarasota Memorial Hospital's Institutional Review Board. He and Martha

were generous and energetic contributors to the hospital's Foundation.

An avid traveler, Glenn had many adventures with friends, family, and a beloved series of Jack Russell terriers. A few years' secondment at Eli Lilly's U.K. location gave him a lifelong love of Britain's land and history, and with his family he traveled the waters of Britain and Ireland by canal boat for several summers. He loved hiking and completed several "long walks" including a walk across England.

Glenn will be missed by all who knew him.

“ I am sorry to hear of Glen's death. He was on my Masters Degree committee in 1967. He became a role model for me, probably without knowing it. I did go on to get my doctorate in pharmacology and MD degrees like him, because the example he set as a gentleman. In my tribe he would be called a real Mench. My heart felt condolences to his family, my world was better for haven known him

Byron Wilkenfeld, M.D.,P.h D.

“ I just learned of Glen's passing. He was a mentor to me when we worked at Johnson and Johnson back in the early 80s. He was instrumental in convincing me to go back to medical school. I last saw him at a nursing home in Sarasota, florida circa 2012 and we were able to reminisce about the old days in the pharmaceutical industry. He will be sorely missed. Philip Chaikin, Pharm.D., M D.
