“ You would have been 24 this year. We would be laughing, we would be hugging, crying, what ever we want. NO one could stop us from being together as a family. If you could have just lived a little longer. If the lies you were told would have not been told. I have so many regrets, but they told me you be 18 soon then they could not stop you from coming to see us anymore. Oh why could you not have waited till you were 18. I been crying a lot lately, The pain is still so real. You will never leave my thoughts my sweet precious granddaughter.

She's at peace. She knows everyone misses her. 8 years since I knew her in high school and I only knew her for 2 years and I still remember everything. This is a grief that will always stick to some extent.

“ I am Hailey Shields Maternal Grandmother, I was told that her dad Keith John Norton had some letters she wrote to her little brothers. He had also said he share with us photos and drawings she made via copies of them. I have had custody of her younger brothers for almost a year now and they both have autism and they long to read these letters. Matt when he hears my daughters voices on the phone he always yells out is that my sister Hailey. He sort of understands we can t see her anymore but he really would benefit from hearing her words to him. She took care of them for her mom many times. We miss her so much. She is on my mind and in our hearts forever. Please if you know how to reach Keith or Keith if you read this please contact me through facebook messenger or even a note in here. We just want the copies and I can give you an address where to send them or you can email them to me at Dannylankford58@gmail.com Thank you in advance, It would mean so much to us.

Suicide is a permanent solution to a temporary problem, Hailey thought when she died she see everyone still they just could not see her. She longed to see her family again she had little brothers , grandparents and lotf of Aunts and uncles who truly miss her and her mom too she had not seen any of her maternal family in over four years. We could not find her

“ Hailey and I were best friends in 6th grade until 7th. I lost contact from her sadly :(but she was the most precious and sweetest girl I have ever known. She had such an amazing heart. She was so outgoing and just always brightened the mood. She always cheered people up and did almost about anything to make them happy. Her soul was so precious and I will always carry our memories everywhere I go. Everyday my heart breaks more and more. Especially knowing the pain she went through. I just hope she is in a better place. She deserves peace

“ *It's times like this that no words come be said to take away the pain of your loss. Just know you and your family are in our thoughts and prayers to find the comfort to get you through this difficult time.* ”
