“ *Isabelle will go down as one of my all-time heroes. Not just because of her good health and long life, but for her passion for the good things in life. She taught me how to be outwardly interested in others... She always remembered details about my family's life and asked us all about them every time we visited. We also loved her sense of timeless design and cozy, yet minimalist, home. She was a true role model for women of her generation and those who came after her. Rest in peace sweet Is! oxo*
