“ *My father was a whole part in my life and was always there when I needed someone to talk to or someone to give me advice. He always loved life and all it had to offer. Through out my life he always set the bar high and wanted me to reach all the great goals and achieve all that I set out to do and grab all the good things in life and enjoy them. He always had a few humorous things to say if we were out doing things or just talking. I will hold those things close and always keep them with me. He was a loving father and I am missing him. In loving memory of my Father. LeAnn Winters*

“ *There really are no words to convey the loss of a father to his son, except to say that I learned what it was to be a man from you and that all I have accomplished is due to the lessons and examples you set. We will talk again someday...*

“ *For so many years, brother-in-law John was a member of the family, a golfing buddy, and a second son to my father and a devoted husband of my sister. It is hard to see his empty chair at the table. bill*

“ An active and hard working man full of life, with a quick and ready smile. A lover of all sports and dogs. Always generous in giving of himself to those less fortunate and to his community. A true friend. A loving husband and father who was always there when he was needed the most. A man who when God called him home was greeted with “Well done my good and faithful servant”. I am proud to say that man was my father. I love you and will greatly miss you Daddy. Karma

“ Cathy you and John married a day after we did. We could not attend the service. We have enjoyed so much all our interactions with you both. John was a fine man and I know how you lived and cared for him. We will miss him so and have been saddened that we have not been able to interact this last year. Sending hugs and love to you.
