“ *My sister Marian was my travel partner, my shopping guru, my partner in crime, my best friend and confidant and she taught me never to leave the house without make up. I think of her everyday with love. Miss your telephone calls everyday*

“ *As one of her granddaughters best friends, I got to see first hand how much she loved her grandchildren and she always treated me as if I were one of them. I would spend weeks with them at a time. I always admired Marian’s sense of style and Lancôme lipstick, her artistic eye for decorating and most of all her kindness. I have so many great memories, most when we were younger. She would include me in the shopping sprees and trips to the salon with Jill and Lauren and in our teenage years even let us drive around town in her Jaguar. I remember a trip down over Easter break. Jill and I decided we were going to surprise everyone and set up Easter baskets. We waited for everyone to go to sleep and put them out. We were very excited to see everyone’s reaction and when we woke up the next morning to our surprise, Marian had the same idea! This past September I knew she wasn’t doing well, she wished me a happy birthday five times on my face book page and each time I thanked her and just thought how sweet it was that she were thinking of me. She will be missed. My deepest condolences to her family and friends. ❤️*
