“Randy Norton came along in my life when we were eight at JJ Finley elementary in Gainesville. He had that flame inside which draws people and causes them to enjoy his company, which I did through grade nine at old Gainesville High School on University Avenue across from Polar Bear. Randy always seemed to be a born leader who made lasting friends easily. When we were young, Randy was attracted to, and comfortable with horses. Once he lured me, on our bicycles, to a hayloft in a barn outside Gainesville where he told me to wait at the upper-loft door and he was going to drive horses through the barn and I was to drop down on one of them and ride bareback. I chickened out and Randy laughed! I was honored when he, Isabel and family invited Bev and me, from the base of the mountain, to their fiftieth wedding anniversary retreat at Caesar's Head where old friends reminisced and once again enjoyed each other. Randy never changed. He was always realistic, courteous and a wonderful example.
