“ My most heartfelt condolences to Marshall and Shelly. They loved and cared for
Todd throughout his illness and were by his side when he took his last breath.
That made Todd a wealthy man - to know he was loved that much. May he rest in
peace.

“ I may have only been Jeff Cooks little sister, but I have fond memories of the time
you spent at our house. When you would magically show up for taco night! Rest
In Peace Todd. You will be missed.

“ Todd and I met in Jr High, and were running buddies thru Jr College, when I
moved away.
Way too many good times to list, I'm not sure the statute of limitations have been
met yet.
Nell and the brothers, my heartfelt condolences are sent to you.
Peace be with you.

“ I'll forever recognize and appreciate how fortunate I was to have had a childhood a great deal of which was spent at the Evans' home in Sanderling. Access to the Whaler (I still have the Whaler by the way), the Sailfish/Sunfish boats on the beach, my favorite Black Lab in the whole world, the Crossman 760, shooting fish on the 'reef,' shooting skeet off the 2nd floor balconies . . . and then also, the difficulties your Dad - Dr. Evans - had trying to get the ground cover to grow around the house because he'd come home to discover you'd yet again driven the VW 'dune buggy' around the house. So it's hard and very painful to believe you're no longer with us Todd - may you be resting now in Peace my friend. And forever thank you for the priceless memories.

Thanks for the kind and amusing words David! Yes, I remember rides to Brookside JH in that damn dune buggy lol. Crazy childhood out there on Sanderling...

I would not trade it for the world or change a thing Mike. I was Blessed to somehow be able to be a part of it all. And again, my sympathy for the loss of Todd.

“ You were such a big part of my life! There are so many memories of our life together. I will always remember how we raised Marshall to be the fine young man he is today. I miss our college days where we hung out on the beach and went out on Mike Hancocks's Hobie Cat. I will miss you terribly.

“Of all the memories we shared the one that stands out to me is when my Dad and I went to Kennedy Space Center. We met an astronaut, saw the concept plans for the Mars rocket, and got to sleep underneath the larger than life Apollo rocket. This memory stands out to me because it is a great example of how he passed his interest of space and science to me, which led me to launch my career into engineering. He was a great Dad, and I will always remember his sense of humor and caring nature.
