“ Sadie,

*I can't even believe that this is real. You were such a happy memory in my life. I always look back at the time we had moving you down to Sarasota, I just can't wrap my mind around the fact that you are gone. I really hope you got to have a lot of great memories with your son Titan. Looking at my daughter today, made me think about you and what you may be doing as a mother. I know we lost touch and today thought about you and saw your obituary. My heart sank. I know you are in a better place now, and I just wish we had more contact with one another the past few years. I'll always treasure the time we had together. Thanks for the great memories, Sadie.*
