“ Dear Wendy’s Family,

I had the privilege of working with Wendy at Knox for over 12 years as an advisor, colleague, manager, and, most importantly, a friend. Throughout that time, she was an extraordinary human being and someone I held in the highest regard. Wendy was a true force - she had a rare bias for action, an unmatched ability to get things done, and a deep passion for her work that inspired everyone around her.

What made Wendy especially remarkable was how she paired that drive with compassion and wisdom. She led with heart, clarity, and thoughtfulness, and she made every collaboration better simply by being part of it. Even after we stopped working closely day to day, we remained friends, and she always took the time to share her accomplishments and milestones at Knox with me.

I am incredibly grateful to have known Wendy and to have shared so many years working alongside her. I wanted you to know how much she meant to me and how deeply she impacted the Knox organization and everyone who had the chance to work with her.

She will be deeply missed, but her legacy - her leadership, kindness, and determination - will endure.

Love to you and your family, Wendy. May you rest in eternal peace, on your favorite beach, as the beautiful soul you are.

“ I worked with Wendy for more than seven years and had the privilege of working closely with her as her Inside Sales partner for the past two. During that time, I had the opportunity to travel to Florida to join her for an annual fire conference. It was during those three days that I truly got to spend one-on-one time with her and learn so much about who she was beyond work.

She shared her deep love for her cats, showing me countless photos and talking about them with such joy. She told me stories about her family and her childhood, growing up on skates. She took me to Publix because I had never been to one before, and of course we had to pick up SkinnyPop snacks her favorite. She even bought me a Publix grocery bag to take home as a souvenir.

There were many moments when we talked about life's struggles and its triumphs. I was always a little jealous of how close she lived to the ocean and the daily walks she took along the beach. I will forever hold close the memories of that trip to Florida the conversations, the laughter, and the random calls and text messages she would send me from her adventures as a saleswoman.

I believe she is now walking along a beautiful beach, surrounded by many cats, her hair and makeup perfectly done, waving to all of us with a smile on her face letting us know she is at peace and finally healed.

You will be remembered forever.... Love, Marie Hardy

“ I didn't have the opportunity to know Wendy for very long but the short time I did know her made an impact. I'll never forget her positive energy and how much she cared. She will be missed but her memory will live forever.

“ I met Wendy at Siesta Key through mutual friends. I live in Indiana and vacationed there every May. She would join us at Jamaica Royale to spend time together on the beach and of course taking long walks on the beach. We became good friends. She was so caring, thoughtful, and generous. She was always helpful in any way. I picture her in heaven walking the beach, rollerblading, and dancing.

“ My name is Karen and I am one of Wendys friends. I believe God put Wendy in my life. I met this angel on an AA Zoom meeting during Covid and immediately connected with her. Wendy had the most compassionate and kind soul, her smile was contagious and was so upbeat. In 2023 I broke my shoulder and she made me promise I would call her as she had been through it and could give me pointers and I did weekly! That stated our friendship sharing about AA and our lives. My sister and I went to see Paul Anka in Hollywood FL in March 2024 and Wendy drove 3 hrs. To meet us there and go with us. We all felt like teenagers. again. I have pics but not too adept at attaching ,but I can email or text to someone. I live in Loudon, TN and whenever Wendy would visit Knoxville on business, she, my husband Ken and I would meet her fir dinner . Wendy loved AA. Sandy and Sailor, her family, friends, Siesta Key, the people she worked with and life in general .She told me how excited she was that her friends and family were coming to visit. Wendy was so grateful how her company supported her. I miss Wendy more than I can say and I'm sure God is holding her now .See you again, Wendy! Love you!
