

William M Isaac

June 19, 2026

William Michael Isaac, aged 83, passed away on June 19, 2026. Born to Ruth and Charles Isaac in Bryan, Ohio, Bill was a man of purpose, family, and ethics. After graduating summa cum laude from the Ohio State University law school, Bill spent his career in banking, and financial regulation, solving problems with incisiveness and equity. At home, he was a loving father to four children, two grandchildren, and a supportive husband to his wife, Angele Christine, of 29 years. Bill's expertise was highly sought after by many in no small part due to his deft and tireless management of the banking crisis of the 1980's as chairman of the federal deposit insurance corporation under President Ronald Regan. His confident presence was a source of inspiration to all who knew him.

The family requests that any flowers or desired remembrances be sent to the Dementia Society of America (dementiasociety.org) or an adult living facility of your choice.

Memorial service schedule will be announced in this space soon.
