Tribute Wall

CR

“ Bill was a mentor to us in his commitment to STEM education with the Rabun Gap school and introducing the students there to the Raspberry Pi and the possibilities it provides. Bill was always passionate about the education of students, particularly in STEM subjects. Those of us who Bill touched hopefully can carry his work forward.
Bill was a friend, a mentor and a guide over the last few years and I will miss that.

RO

“ Thank you!

Robofest Office - April 10, 2018 at 12:00 AM

JL

“ Bill Jr,
So sorry your dad passed away.

“ *Bill, the enthusiastic kids, the robots and I will miss you!
You shared your engineering knowledge, time, and friendship with us (Robofest, and the students in the Tampa Bay area), and we just want your family to know that we love and appreciate all that you did for us.*

As you so eloquently said, As the song in Evita goes...don't cry for me... I am in good spirits and I have had a remarkable career and life.

When we think of you, we will always SMILE!

Thank you!

“ *Bill*

Your life was a helping life . You were a true STEM Champion not only for the kids but for your fellow engineers. You will live on in the lives, careers and hearts of many.

Thank You

Ken Fiallos
